Everstream's Virtual Dedicated Internet Access Service

Multi-site businesses often struggle with IP management and efficient utilization of their bandwidth. [With Everstream's Cloud-based Virtual Dedicated Internet Access \(V-DIA\)](#), a business has one, shared public IP address that can be used for all locations - eliminating the hassle and inefficiency of administering and managing multiple IP addresses for multiple sites.

Ideal for customers with multiple locations, a V-DIA connection allows a business to communicate among its multiple sites with increased throughput. It functions as a private, independent network such that each location is independent of the others. Everstream's V-DIA option provides network redundancy, MPLS redundancy as well as the flexibility to manage and customize IP assignments.

[A longstanding corporate travel business](#) with multiple sites around Northeast Ohio, relies on its V-DIA from Everstream to ensure connectivity among locations. [Read more.](#)

Everstream operations team restructured to accommodate expected growth

As we prepare to invest [\\$300 million into expanding our network](#) in 12 Midwest markets throughout the next 18 months, we've made some positive changes to our operations team.

Joseph Pellegrini has been promoted to Executive Vice President, Operations, as he continues to lead the company's operations management initiatives, including organic growth, strategic requirements and additional range of services.

Additionally, Everstream senior operations team members Tao Pei and Michelle Weber have been promoted to Vice President, Enterprise Technology, and Vice President, Service Delivery, respectively, to accommodate the company's upcoming growth.
